

What I already know

- Electrical appliances that are used at home.
- Energy comes from mains electricity or a battery.

Science Year 4 Electricity

Sticky Knowledge

- I know the names of some electrical appliances
- I know how to make a simple circuit and can name the basic parts: a cell, wires, bulb, switch, motor and buzzer.
- I know what is needed for a bulb to light up in a circuit.
- I know that a switch opens and closes a circuit.
- I know the names of some good metal conductors and insulators.

Vocabulary

cell, battery, components, metal, conductors, insulators, materials, current, voltage, safety precautions
